PREFACE

Bureau of Statistics Khyber Pakhtunkhwa has been annually releasing Development Statistics since 1980. The publication is based upon secondary data and contains latest and comprehensive statistics on a wide array of subjects with district-wise breakdown. Statistical Abstracts highlighting comparative picture of Khyber Pakhtunkhwa with Pakistan have been given in the outset of the publication, while glossary of the terms used in the report has been provided at the end.

In some cases national level data with provincial breakdown have also been incorporated to enable data users to make comparative analysis of national, provincial and district level data.

Bureau of Statistics is extremely thankful to the Provincial Lines Departments, District Governments and other data generating organizations for their cooperation in supplying requisite data required for this publication.

The team efforts of the staff of Bureau of Statistics in producing this publication are highly appreciated.

It is hoped that the publication will best serve the needs of policymakers, planners, academia, researchers and other data users in context of evidence – based planning, decision - making and quantitative analysis.

For convenience and easy accessibility to larger users of the data, the publication has been made available on the official website of Bureau of Statistics www.kpbos.gov.pk.

Suggestions for improving the coverage and format of the forthcoming publication would be welcome.

EXPLANATORY NOTE ON AGRICULTURE, FORESTRY AND FISHERIES SECTORS

This Chapter covers Agriculture, Forestry and Fisheries sectors. Agriculture constitutes the largest sector of our economy. Majority of the population is directly or indirectly dependent on this sector. It contributes about 24 percent to Gross Domestic Product (GDP) and accounts for almost half of the employed labour force. With its 60 contribution to exports, it remains the largest source of foreign exchange earnings.

Ensuring food security and controlling food inflation are the main tasks for macroeconomic policymakers, especially in the context of poverty alleviation interventions. The issues call for a multi-pronged strategy to make agriculture sector efficient, competitive and sustainable.

The section of agriculture contains statistics on a number of important aspects, a summary of which is highlighted below:

- i. Province-wise area, production and yield per hectare of major crops.
- ii. District-wise and year-wise area, production and yield per hectare of major crops, minor crops, fruits, vegetable and pulses.
- iii. Land Utilization.
- iv. District and year-wise area irrigated by different sources.
- v. Number of farm by size, sales and prices of fertilizer by District, tractor population by district, plant protection coverage through ground operation, fruit sapling production distributed by Fruits and Vegetables Development Board, fruit nursery farms, District and year-wise physical progress of soil conservation organization.

The statistics contain yield data on the most important crops in Khyber Pakhtunkhwa. The yield and production of major crops show varied results on district-wise comparison. The yield for major crops in the province is well below the national average.

Out of the cultivable area in the province only 1.8 million hectare is cultivated, whereas 1.08 million hectare is culturable waste, signifying the need to bring more area under cultivation so as to address the issue of food security and rural livelihood in the long-term.

The analysis of ADP's allocation to agriculture sector for the past two years highlights that on average the share of agriculture sector to the total size of the ADP remained 1.5

percent, which is insignificant to confront the issues of low productivity, food security and rural livelihood.

Forests

The section of forestry contains statistics on forest resources. The statistics report that in Khyber Pakhtunkhwa about 23 percent land is under forest cover. The proportion of forest area in Mansehra, Kohistan, Swat, Lower Dir, Upper Dir, Abbottabad and Chitral is relatively high.

Fisheries

The section of fisheries contains the fish production fishing licences and revenue. The reporting data is indicative of the fact that the fish production and revenue have been significantly decreased.

Livestock

Livestock statistics capture important data relating to veterinary hospitals and dispensaries, animals and birds treated; number of slaughter houses, animal slaughtered and artificial insemination.

EXPLANATORY NOTES ON MANUFACTURING INDUSTRIES SECTOR

The manufacturing sector has been a major contributor towards promoting economic growth, employment generation, competitiveness and trade development. It is witnessing gradual buildup in its share in the GDP and its importance has increased tremendously during recent years in the wake of emerging issues of poverty, over-population, unemployment and increase in import bill of manufacturing items. The vision 2030 envisages the share of manufacturing sector to change from the current 18.3 percent of GDP to nearly 30 percent by the end of the vision period.

Industrialization is an important driver for development of an economy. It commanded a central position in all the Five-Year Plans in the growth of the Pakistan's economy as manufacturing provides job opportunities to the population.

The chapter on Industries contains 23 tables and provides basic data on Number of registered industrial units classified by major groups; sugar production and loans disbursed by IDBP, NIB, SIDB.

Census of Manufacturing Industries (CMI)

Census of Manufacturing Industries (CMI) is conducted by Pakistan Bureau of Statistics after every five years under the Industrial Statistics Act, 1942 in collaboration with the Provincial Directorate of Industries and Provincial Bureaus of Statistics. It provides basic data on Fixed Assets, Inventories, Employment, Employment Cost, Industrial Taxes, Overhead Expenses, and Value of production and Value Added etc.

It covers those establishments, which are engaged in manufacturing activities whether for whole or part of the year with single or joint ownership/ control and are registered under Factories Act, 1934. Some factories liable for registration are also covered. However, defense and government workshops though engaged in manufacturing activities and registered under factories act are excluded from the preview of the census.

Monthly Survey of Industrial Production and Employment

The Monthly Survey of Industrial Production & Employment is a regular monthly publication of the Bureau of Statistics, Khyber Pakhtunkhwa, which is being released since 1976. It provides information on production covering quantity, value and employment with regard to 16 types of large scale manufacturing industries situated in Khyber Pakhtunkhwa.

EXPLANATORY NOTE ON POPULATION SECTOR

Introduction

Population has long been recognized as one of the most important factors in economic and social development process. Population growth patterns are linked to nearly every matter confronting humanity including poverty, urban pollution, education, energy production, roads, food, water scarcity and human health.

Population Census

Since independence of this country, five Population Censuses have been conducted. First decennial Population Census of Pakistan was conducted during the period from 9th to 28th February 1951, the second from 12th to 31st, January 1961, the third from 16th to 30th September 1972, the fourth from 1st March to 15th March 1981 and the fifth from 2nd March to 18 March 1998.

The fifth decennial Population Census was preceded by a full-fledged Housing Census. The Census figures covered the Population residing in Pakistan on 1st March 1998 excluding the Afghan Refugees living in Camps.

The Khyber Pakhtunkhwa Population as per 1998 Pakistan Census Report is 17.74 million which constitutes 13.40% of the population of Pakistan. The Population of this Province has increased at an average Annual Growth Rate of 2.82% over and above the National Growth Rate of 2.69%.

The Population, Inter Censal increase and Annual Population Growth Rates since 1951 in the province are provided in the following table:

The ratio of the female to male gross enrollment rate measures progress towards gender equity in gross enrollment rate at primary level. When the gender parity index shows a value equal to one, boys and girls enrollment are equal in terms of gross enrolment rates. A value less than one indicate that proportionately fewer girls than boys have enrollments.

F**Fertility Rate**
