

# PREFACE

Development Statistics of Khyber Pakhtunkhwa is one of the most important documents released by the Bureau of Statistics annually. This issue is the 26<sup>th</sup> in its series. This publication contains latest district and sector wise data for Khyber Pakhtunkhwa covering socio-economic, productive and infrastructure and other sectors comprehensively. In some cases national level data is also incorporated to enable the users to have not only an assessment of comparison of the districts with the Province but also have an access to the provincial and the national comparison.

The best and quick decision making based on the logical and statistical facts by policy and decision makers is one of the challenges. So this publication is being released with a specific objective to meet the broader data needs of the policy and decision makers, planners, economists, researchers, statisticians and other users working in the various fields.

The BOS Khyber Pakhtunkhwa depends on the secondary data collected from the data generating agencies i.e line departments and other organizations. Efforts have been made to ensure that these information's provided by the line departments are authentic and correct. Moreover, these departments are requested to provide data regularly on time, to avoid delay in the issue of future publications. Researchers, planners, academia and other data using and producing agencies will find this document useful and will appreciate their valuable suggestions for improvement in the future publication.

Efforts of the staff of the Bureau of Statistics Khyber Pakhtunkhwa in compilation of this publication are also appreciated. I am also thankful to all the Provincial Departments and Semi-Government Organizations and other concerned agencies for supplying the data needed for this publication.

Suggestions for further improvement of this publication will be highly appreciated.

(SHAFI ULLAH KHAN)  
DIRECTOR  
BUREAU OF STATISTICS  
KHYBER PAKHTUNKHWA  
PESHAWAR

## CONVERSION FACTORS

### **WEIGHTS**

## **EXPLANATORY NOTE ON AGRICULTURE SECTOR**

This Sector includes data up to 2011-12. The main statistical features of the Chapter are broadly as under:

1. Province wise area, production and yield per hectare of major crops 2011-12.
2. District wise and year wise area, production and yield per hectare of major crops minor crops, fruits, vegetable and pulses, 2011-12.
3. Land Utilization 2009-10 to 2011-12.
4. District and year wise area irrigated by different sources 2009-10 to 2011-12.
5. Number of farm by size of farm, number of Qanungo circles, Mouza and total area. Canal with drawal, sales and prices of fertilizer by District, Tractor population by District, plant protection coverage through ground operation, fruit sapling production distributed / by Fruits and Vegetables Development Board, fruit nursery farms, District and year wise physical progress of soil conservation organization.

The data for these sub-sectors have been collected from various sources indicated at the bottom of each table. The collection and compilation of land utilization, crop acreage and production data are explained below which also highlights the terms used definition and methodologies used in compilation of these statistics.

### **(A) CROP SEASONS**

Kharif crops are sown in summer and harvested in late summer or early winter. The important Kharif crops are cotton, Rice, Sugarcane, maize, Jowar and Bajra. Rabi crops are sown in the winter and harvested in late winter or during early summer. The important Rabi crops are wheat, grams, Barley, rapeseed and Mustard.

### **PRODUCTION OF CROPS**

For the major crops i.e. Maize, Rice, Sugarcane, gram, rapeseed and Mustard, potato, barley, Jowar, Bajra, Seasamum, Onion, Masoor, Mong, Mash and Wheat. Agriculture Statistics of Agriculture department conducted crop cutting surveys final estimates of Area and production of major and minor crops are discussed at the meeting of Khyber Pakhtunkhwa Agriculture sub-Committee along with other information available about fertilizer, pesticides, rainfall, water availability for clearance.

The above detail assists the user in analysing the different variables at work in the agriculture sector, which is the prime sector of our national as well as provincial economy. This issue also contain a number of statistical parameters derived from census data released by

Agriculture Census organization to plug the gap maximum by providing data where current statistics did not respond.

Besides main data on Agriculture, Land use and crop production allied sub-sectors data has also been sufficiently covered like forestry Agriculture inputs etc. etc.

## **(B) LAND UTILIZATION**

Land utilization statistics are compiled by Agriculture Statistics, Agriculture Department of Khyber Pakhtunkhwa. Board of Revenue, Khyber Pakhtunkhwa compiles these Statistics from District information supplied definitions of the terms used in the Land Utilization statistics are explained below.

### **CULTIVATED AREA**

It comprises that land which is sown at least during a year or the preceding year. It is the sum of net area sown and current fallow.

#### i. **Net Area Sown**

It means that cultivated area which is actually sown at least once during the year (Kharif and Rabi) regardless of the number of crops raised.

#### ii. **Current Fallow**

It means that cultivated area which is not cropped during the year, but was cropped during the preceding year.

#### iii. **Culturable Waste**

It comprises that un-cultivated land which is fit for cultivation but was not cropped during the year nor in the preceding year.

#### iv. **Area not available for Cultivation**

It means barren or mountainous land, area under roads, Canals, Rivers and all such areas, which are not utilized for agriculture purpose.

## **INTENSITY OF LAND USE**

Intensity of land use represents the cultivated area measured in terms of total Culturable area multiplied by 100 i.e.

$$\text{Intensity of land use} = \frac{\text{Cultivated area}}{\text{Total Culturable area}} \times 100$$

$$\text{Culturable area} = \text{Cultivated Area} + \text{Culturable waste}$$

It indicates the extent to which the Culturable land was used for production.

## **INTENSITY OF CROPPING**

It is the area sown during Kharif and Rabi seasons during a given year; the crop acreage is conducted by the Revenue patwaries for each season. They compiled acreage of the final estimates of the crops during Kharif and Rabi season.

$$\text{Cropping Intensity} = \frac{\text{Cropped Area}}{\text{Cultivated Area}} \times 100$$

## **EXPLANATORY NOTE ON FOOD**

Human body is a living machine that like all other living organism needs food to survive. It is the very basic need to sustain life. Food generation and production is the blessing of Allah and mainly depends on natural food generation resources. Food Sector is an important sector dealing directly with human lives. Food, requirement availability and access are significant variables/factors to be utilized for sustainable planning and improvement in Food security situation at any Administrative Unit of the State.

In order encompass this important issue and highlight it in the publication and efforts to highlight the food security situation by district has been made. Though extensive analysis pertaining to food security situation is a complex job however this exercise will keep planners and research workers to comprehend the concept of the issue and related fundamental facts.

Though, it is difficult to underestimate any Food crop, keeping in view, its nutritional weight and agricultural asset, may be it belonging to “major crop” sectors or “minor crop” sectors, but from planning and basic need’s point of view, staple food crops are of paramount importance and leading crops being wheat followed by Rice & Maize. Therefore in the beginning the analysis of food security has been started from wheat & Rice, which will be extended to other major and minor crops for analytical assessment in the coming years.

It is hoped this data analysis will be found highly significant from food security planning point of view not only at macro level but also at provincial/ regional/ district level.

The analysis is done by districts to enable districts to plan at their level. The variables taken for analysis are production of these crop, procurement and releases.

It is anticipated that user would find it quite useful.

## **EXPLANATORY NOTE ON EDUCATION SECTOR**

Education is Key to Development. A country cannot develop economically unless her literacy rate is accelerated. This is one of the important factors regarding being less developed in the world. Pakistan is one of the countries in the world, which invest 1.8% of the G.N.P in education sector with vast human resources base with abundance of talents. Efforts had been made and are ongoing to boost up literacy rate to capitalize the human resources through the economic tools of efficiency of labour to make breakthrough in the vicious circle of poverty.

A total of 37 tables have been included in education sector. This sector contains data for period 2009-10 to 2011-12.

Information regarding literacy ratios in Khyber Pakhtunkhwa with comparison to other Provinces has been included.

It is assessed that the educational coverage presented in this chapter is in-sufficient to provide a broad based bench mark statistics, required for planning purposes which revolves around targets envisaged for universal literacy of 5-9 years population by the two decade of this century. The set of statistics relating to evaluation of Developmental targets can only be attained when all enrolment through private, public, corporate, Federal Govt: and Provincial institutions plus all these pockets being utilized to disseminate literacy are covered.

The private school data has been included for the year 2009-10.

**The various definitions used in the education sector are as under:-**

- |                                       |   |
|---------------------------------------|---|
| 1. Literate                           | A Person who can read and write a simple letter.  |
| 2. Literacy Ratio                     | $\frac{\text{Total No. of literate (10 years & above)} \times 100}{\text{Total population}}$  |
| 3. Participation Rate (Primary Level) | $\frac{\text{No. of Students ( I-V )} \times 100}{\text{Age group population ( 5-9 )}}$       |
| 4. Participation Rate (Middle Level)  | $\frac{\text{No. of Students ( VI-VIII )} \times 100}{\text{Age group population ( 10-12 )}}$ |
| 5. Participation Rate (High Level)    | $\frac{\text{No. of Students ( IX-X )} \times 100}{\text{Age group population ( 13-14 )}}$    |
| 6. Student Teacher Ratio              | $\frac{\text{No. of Students}}{\text{No. of Teachers}}$                                       |
| 7. Drop out rate                      | $DR = \frac{Et-Et_1}{Et} \times 100$  |

**Et = Enrolment in the base year.**

**Et<sub>1</sub> = Enrolment in the next year in the next class.**

The above terms explained will help the users in understanding the concepts and methodology used in the compilation of data and will help to know the purpose of the various figures given in education sector.

## **ANALYTICAL REPORT ON EDUCATION SECTOR**

As usual data on three main subjects namely Number of Educational Institutions, enrolled population therein and their teaching strength have been presented for the last three years. Looking at data, it is seen that Number of all type Primary Schools has increased from 22608 in 2010-11 to 22760 in 2011-12. Boy's schools experienced 0.33 % increase in 2011-12 over 2010-11, while girls schools have been increased by 1.31 % during the same period. Mosque schools offering 1-5 classes have also decreased. Number of Mosque Schools, which decreased from 2677 in 2010-11, to 2668 in 2011-12, and enrolment in these schools decreased from 105742 in 2010-11 to 103418 in 2011-12, while number of teaching staff has Increased from 3078 in 2010-11 to 3086 in 2011-12.

There are 2557 Middle Schools in the Province, 1534 for Boys and 1023 for Girls in 2011-12. In 2010-11 there were 2540 Middle Schools. Enrolled population in Middle Schools have increased from 670056 in 2010-11 to 712534 in 2011-12 (about 6.33 %). Also the Number of Teaching Staff in Middle Schools has decreased from 14843 in 2010-11 to 14622 in 2011-12.

As far as High and Higher Secondary Schools are concerned, their Number, Enrolment & Teaching Staff are increasing. Number of High Schools increased from 1759 in 2010-11 to 1836 in 2011-12. Boys High Schools, which were 1229 in 2010-11, has increased to 1269, while Girls High Schools increased from 530 in 2010-11 to 567 in 2011-12. Number of Higher Secondary Schools has increased from 300 in 2010-11 to 303 in 2011-12.

There are 145 degree and 20 Post Graduate Colleges in the Province in 2011-12. At the moment, there is no Inter College for girls as well as for boys; however, there are 55 degree colleges for girls and 90 for boys in 2011-12. Enrolment and teaching staff position in these colleges has improved to some extent.

As far as Number of Technical Educational Institutions in the Province is concerned, at the moment, there are 25 Polytechnic Institutions/GCT, 25 Colleges of Management Sciences (GCMS) and 47 Technical and Vocational Centres in the Province.

## **EXPLANATORY NOTE ON HEALTH SECTOR**

Health is an important Social Sector. Economic Development and Social Progress are closely linked with the state of health of the Population of a Country. Health facilities are essential not only to provide clean and disease free atmosphere to live but also to enhance the efficiency and productivity of Population. The parameters determining the state of health of a given area and its population rests on availability of clean drinking water, sanitation facilities, Doctors & population, existence of medical units, and maternity facilities etc, to keep people not only free from communicable disease but to make sure quality of life and reduction in mortality rate.

The infrastructure of health therefore covers the establishment of Health Institutions like Hospitals, Dispensaries, R.H.Cs, B.H.U.s and staffing these units with sufficient number of Medical/Para Medical Staff. The position of these health services can make significant contribution to Economic Growth.

The Health Sector of this issue contains the medical statistics for the period 2010 to 2012. A total of 11 tables have been incorporated in this issue of Development Statistics highlighting the following main Medical Statistics.

1. Numbers and Bed Strength of Hospitals/Dispensaries, B.H.U.s, M.C.Hs & T.B Clinics.
2. Number of Patients treated (Indoor/Outdoor) in Government Hospitals & Dispensaries.
3. Number of Medical/Para Medical Staff actually working in various Health Institutions of Khyber Pakhtunkhwa.
4. Number of Registered Private Medical Practitioners (Male/Female) for the year 2011-12.
5. Distribution of Oral Rehydration Salt (ORS) for 2011.
6. Expanded Programme on Immunization for the year 2011-12.

The data in respect of Number of Private Medical Practitioners and Category Wise number of medical/Para medical staff actually posted could not be presented at Tehsil level due to the non-availability of data either in B.O.S or Director General Health services.

Current Statistics indicating current position of health facilities throughout the Province, plays the key role in policy making processes and if huge time lag is involved in the collection of data, it losses its utility. So Directorate of Health is required to collect these Statistics from their sub-ordinates offices in time according laid down schedule and to communicate these statistics to Bureau of Statistics. Bureau of Statistics had made efforts, time and again to improve the quality of data and make it more useful for planners and others data using agencies but being secondary data, the arrangement are to be finalized by Health Department.

Efforts would be made to present these Statistics in our future issue in decentralized and analytical form maximumly.

## **DEFINITION OF HEALTH INSTITUTION**

### **HEALTH INSTITUTION**

A health institution is defined as an institution, which provides health services, curative and preventive to all specific class of the public as outdoor/indoor, patients.

### **HOSPITAL**

A Health Institution having 10 or more than 10 beds. However, this definition will not be held where Government has differently named an Institution e.g. Rural Health Centre.

### **DISPENSARY**

A Health Institution having less than 10 beds.

### **RURAL HEALTH CENTRE**

A Rural Health Centre (RHC) provides medical cover to a population of 10,000 to 50,000. A Rural Health Centre may have up to 25 beds with Laboratory, X-ray and Minosurgery. Rural Health Centre are linked through tehsil/Taluka Hospitals to District Headquarter Hospitals, which have all Medical facilities.

### **SUB-HEALTH CENTRE**

3-4 Sub-Health Centre are attached to a rural health Centre. This is an old concept. Existing Sub-health Centres are gradually being converted into Basic Health Units.

### **BASIC HEALTH UNIT**

Under present concept, 4 Basic Health Units are linked to a Rural Health Centre. A Basic Health Unit (BHU) is provided to serve about 5,000 to 10,000 populations. A Basic Health Unit is responsible for comprehensive health care which, among other things, includes midwifery, Child Care, Immunization, Diarrhoea diseases, Malaria Control, Child spacing, Mental and School health Services with in its areas.

## **EXPLANATORY NOTE ON POPULATION WELFARE AND SOCIAL WELFARE**

Keeping in line with the objectives of the Government, a tremendous importance is given to the development of social sectors along with economic sector, to ensure development of Human resources and to bring increasing change in the coverage of life of the people. The quality of life can be ensured by accelerating the speed of economic development on the one hand and on the other, taking appropriate measures and policy decision which should ensure better distribution of the benefits of the growth amongst people. Population growth rate is to be kept in control to achieve these objectives, so that a change in the quality of life is ensured through these development activities. As effort has been made in this document to cover the activities of the Population Welfare Sector on one hand and on the other to cover Social Welfare Sector, which is also the corner stone of development of status of over victimized segments of our society. In this regard the following tables covering the data on different aspects of Population Welfare and Social Welfare are covered.

1. Number of Social Welfare Institutions in Khyber Pakhtunkhwa, by type including women and children from 2009-10 to 2011-12.
2. Number of Existing Social Welfare Services for women and children in public sector in Khyber Pakhtunkhwa, **2009-10 to 2011-12.**
3. Number of existing Social Welfare Services for women and children in private sector in Khyber Pakhtunkhwa, 2009-10 to 2011-12.
4. Method/ project-wise performance of Population Welfare in Khyber Pakhtunkhwa, 2009-10 to 2011-12.

## **EXPLANATORY NOTE ON INDUSTRIES SECTOR**

Industrialization has commanded a central position in all the five-year plans in the development/growth of the Pakistan's economy as manufacturing provides job opportunities to the population, technical advancement and capital mobilization. As far as Pakistan's GDP is concerned, after Agriculture, Manufacturing is a second important sector of economy contributing towards national income and is source of generation of employment. The importance of manufacturing sector has increased tremendously during recent years, in the wake of rampant poverty, over population, job scarcity and increase in import bill in industrial manufacture items. Therefore, manufacturing through local & foreign investments in manufacturing sector is the important strategy being followed by the present Government to stabilize the economic base of the economy through a network of industrial units, in large, medium and small-scale industrial units throughout the country, particularly in leftover and rural regions of the country.

The Industrial position in Khyber Pakhtunkhwa is as under:

<u>S.No.</u>	<u>Year</u>	<u>Number of Industrial unit</u>
1.	1977-78	260
2.	1987-88	326
3.	1997-98	624
4.	2002-03	1961
5.	2003-04	1964
6.	2004-05	1967
7.	2005-06	2219
8.	2006-07	2236
9.	2007-08	2254
10.	2008-09	2207
11.	2009-10	2239
12.	2010-11	2252
13.	2011-12	2299

The industries chapter in this publication contains 10 tables. It provides basic data on No.of registered industrial units, classified & by major groups, loans disbursed by IDBP, NIB & SIDB. Sugar production data is also available.

Apart from above, Bureau of Statistics Khyber Pakhtunkhwa also releases monthly report on industrial production & employment on monthly basis.

#### **CENSUS OF MANUFACTURING INDUSTRIES (CMI)**

Census of Manufacturing Industries (CMI) is conducted under the Industrial Statistics Act, 1942 in collaboration with Provincial Directorate of Industries and Provincial Bureaus of Statistics. It provides basic data on Fixed Assets, Inventories, Employment and Employment cost, Industrial Taxes, Overhead Expenses and Value of production and Census Value Added etc.

It covers those establishments, which are engaged in manufacturing activities whether for whole or part of the year with single or joint ownership/ control and are registered under Factories Act, 1934. Some factories liable for registration are also covered. However, defense and government workshops though engaged in manufacturing activities and registered under factories act are excluded from the preview of the census.

The CMI is the product of the joint efforts of the Federal Bureau of Statistics, Provincial Bureau of Statistics & Directorate of Industries. Federal Bureau of Statistics prepares all Pakistan tables and publication of CMI report.

#### **MONTHLY SURVEY OF INDUSTRIAL PRODUCTION & EMPLOYMENT**

The monthly quantitative production & employment data for 29 selected items are being collected, compiled and released for publications & supplied to user agencies. The data are collected directly from manufacturers unit on voluntary basis through mail. Federal Bureau of Statistics uses these in computations of indices.

The time lag in release of this publication is about 40 days. Efforts are under process to improve the document, by expansion timeliness and reducing non response.

## **EXPLANATORY NOTE ON LOCAL BODIES**

As per decision of the Government to devolve the system of Governance in 2000 the programme of Districts and local bodies' election were carried out in country, during the year 2005. For this purposes, Local Government election for Union Councils were carried out in the Provinces including Khyber Pakhtunkhwa also District Government set up were arranged by the Government.

In Khyber Pakhtunkhwa, the Union Council elections were held in 3 phases during August 2005.

Phase-I election were held on 18 August 2005 in District Peshawar, Nowshera, Charsadda, Mardan, Swabi, Kohat, Karak, Bannu, D.I.Khan, Tank, Haripur and Buner While Phase-II Union Councils election were carried out in 28th August, 2005 in Hangu, Lakki Marwat, Abbottabad, Mansehra, Battagram, Kohistan, Swat, Shangla, Upper Dir, Lower Dir, Chitral and Malakand protected area Districts.

Subsequently in line with an integrated approach the election of all local bodies were finalized on 06/10/2005.

According to the Local Government ordinance prescribes the following legal framework for the delimitation of Union Councils.

- a) The area of Union Council town in a city district or tehsil shall be territorial unity.
- b) The area of Union Council shall not cross the limits of a town in a city district or a tehsil.
- c) The area of Union Council in a city district or in a Union with Urban characterized shall comprise a whole number of census, blocks number and delimited for the purpose of the last population census.
- d) The population of a Union Councils within a district or a city districts shall as far as possible be similar.

It is therefore imperative that the data on the restructured District government be covered and accordingly the data is covered on the following aspects:-

The details of the tables are as under:-

- 1) The position of Districts and their administrative composition.
- 2) The financial details and working of TMA in the Province.

## **EXPLANATORY NOTE ON POPULATION SECTOR**

### **INTRODUCTION**

Population and Development are interrelated. Demographic patterns and population control and welfare measures may be integrated into comprehensive social and economic plans and programmes. There integration should be reflected in the goals instrumentalities. Development objectives and strategies to be followed in the National planning areas. A brief description of generation of demographic data is as follows:

### **POPULATION CENSUSES**

Since independence of this country, five Population Censuses have been conducted. First decennial Population Census of Pakistan was conducted during the period from 9th to 28th February 1951, the second from 12th to 31st, January 1961, the third from 16th to 30th September 1972, the fourth from 1<sup>st</sup> March to 15th March 1981 and the fifth from 2nd March to 18 March 1998. Inter censal period have been taken as 10 years, 11.62 years, 8.46 years, between 1951 and 1961 Censuses, 1961 and 1972 Censuses and 1972 to 1981 Censuses respectively. The fifth decennial Census was conducted after a lapse of 17 years.

The fifth decennial Population Census was preceded by a full-fledged Housing Census. The Census figures covered the Population, residing in Pakistan on 1<sup>st</sup> March 1998 excluding the Afghan Refugees living in Camps.

The Khyber Pakhtunkhwa Population as per Pakistan Census Report is 17743645 and per Khyber Pakhtunkhwa Census Report is 17735912, which is contradictory on the part of Population Census Organization. However all the statistics in this publication are based on the Khyber Pakhtunkhwa Census Report 1998.

The Khyber Pakhtunkhwa Population constitutes 13.40% of the population of Pakistan as per 1998 Census as compared to 13.13% in 1981 Census. The Population of this Province has increased at an average Annual Growth Rate of 2.82% as compared to National Growth Rate of 2.69%.

The Population and its rate of increase and Annual Growth Rates since 1951 are as under:

<b>Sl.No.</b>	<b>Year of Census</b>	<b>Population</b>	<b>Inter Censal Increase (%)</b>	<b>Annual Growth Rate (%)</b>
1.	1951	4556545	-	-
2.	1961	5730991	25.77	2.34
3.	1972	8388551	46.37	3.32
4.	1981	11061328	31.86	3.32
5.	1998	17735912	60.34	2.82
6.	1951-1998	-	289.24	2.93

There is a marked decrease in the Inter Censal Growth Rate of Khyber Pakhtunkhwa (81-98) as compared to (61-72) and (72-81) Growth Rates.

At the time of the 1998 Census, there were 24 Districts as compared to the 12 Districts in 1981 Census. The Districts are divided into Tehsils/Sub-Divisions. Each Tehsil is divided into Qanungo circles, Qanungo circles into Patwar circles and Patwar circle, into Mouzas (Revenue Estates). In Buner, Shangla, Upper Dir, Lower Dir, Chitral, Malakand Agency and Kohistan District, each Tehsil/Sub-Division is, however, divided into Union councils and Union councils into villages.

The sex ratio (Males per hundred Females) in 1981 was 109, which is now 105 in 1998 Census and has registered decline. The population density has increased to 238 persons per Sq.Km in 1998 Census from 148 persons per Sq.Km in 1981.

The sector contains 15 Tables, covering mainly the following Population Statistics of Khyber Pakhtunkhwa.

1. Province-wise Population with Urban/Rural break up of 1951, 1961, 1972, 1981 & 1998 Censuses.
2. District-wise/Tehsil-wise Area & Population with Male, Female and Urban Rural break up and also covering, Density, Annual Growth Rate, Dependency Ratio and Age Group wise Population of 1998 census of Khyber Pakhtunkhwa.
3. District-wise/Tehsil-wise population estimates of Khyber Pakhtunkhwa with Male/Female and Urban/Rural break up for financial and calendar years from 2006-07 to 2010-11.

### **POPULATION PROJECTION**

For Population Projection, the growth rates as given in the Economic Survey (worked out by National Institute for Population Studies) were not applied to Projections for the Distt: as the NIPS did not calculate it for districts, So the inter-censal growth rates (1981-98) were applied to the district Projections by using the following formula:

$$P_l = P_o \left(1 + \frac{r}{100}\right)^n \text{ where}$$

$P_o$  = Population of base Census  
 $P_l$  = Population of latest Census  
 $r$  = Growth rate  
 $n$  = Time Interval (in years) between two Census

### **DEPENDENCY RATIO**

The ratio of persons in the ages defined as dependent (under 15 & over 64 years) to those in the ages defined as economically active (15-64 Years) in the Population.

S/D = Sub Division

- Note:-**
1. Total of Tehsils / Districts may not tally with Khyber Pakhtunkhwa due to rounding and disparity in growth rate.
  2. Due to negative growth rate of Battagram distt., the growth rate of their parent distt., Mansehra has been taken and for Pattan S/D, the growth rate of Kohistan district has been considered for estimation.
  3. In some urban areas, where the growth rates were not available. So in that case overall growth rates have been preferred for consistency and availability of projected population for those areas.

S/D = Sub Division

Note:- 1. Total of Tehsils / Districts may not tally with Khyber Pakhtunkhwa due to rounding and disparity in growth rate.

2. Due to negative growth rate of Battagram distt., the growth rate of their parent distt., Mansehra has been taken and for Pattan S/D, the growth rate of Kohistan district has been considered for estimation.

3. In some urban areas, where the growth rates were not available. So in that case overall growth rates have been preferred for consistency and availability of projected population for those areas.
