PREFACE

Bureau of Statistics Khyber Pakhtunkhwa has been annually releasing Development Statistics since 1980. The publication is based upon secondary data and contains latest and comprehensive statistics on a wide array of subjects with district-wise breakdown. Statistical Abstracts highlighting comparative picture of Khyber Pakhtunkhwa with Pakistan have been given in the outset of the publication, while glossary of the terms used in the report has been provided at the end.

In some cases national level data with provincial breakdown have also been incorporated to enable data users to make comparative analysis of national, provincial and district level data.

Bureau of Statistics is extremely thankful to the Provincial Lines Departments, District Governments and other data generating organizations for their cooperation in supplying requisite data for this publication.

The team efforts of the staff of Bureau of Statistics in producing this publication are highly appreciated.

It is hoped, that the publication will best serve the needs of policymakers, planners, academia, researchers and other data users in context of evidence-based planning, decision - making and quantitative analysis.

For convenience and easy accessibility to larger users of the data, the publication has been made available on the official website of Bureau of Statistics www.kpbos.gov.pk.

Suggestions for improving the coverage and format of the forthcoming publication would be welcome.

EXPLANATORY NOTE ON AGRICULTURE, FORESTRY AND FISHERIES SECTORS

This Chapter covers Agriculture, Forestry and Fisheries sectors. Agriculture constitutes the largest sector of our economy. Majority of the population is directly or indirectly dependent on this sector. It contributes about 24 percent to Gross Domestic Product (GDP) and accounts for almost half of the employed labour force. With its 60 contribution to exports, it remains the largest source of foreign exchange earnings.

Ensuring food security and controlling food inflation are the main tasks for macroeconomic policymakers, especially in the context of poverty alleviation interventions. The issues call for a multi-pronged strategy to make agriculture sector efficient, competitive and sustainable.

The section of agriculture contains statistics on a number of important aspects, a summary of which is highlighted below:

- i. Province-wise area, production and yield per hectare of major crops.
- ii. District-wise and year-wise area, production and yield per hectare of major crops, minor crops, fruits, vegetable and pulses.
- iii. Land Utilization.
- iv. District and year-wise area irrigated by different sources.
- v. Number of farm by size, sales and prices of fertilizer by District, tractor population by district, plant protection coverage through ground operation, fruit sapling production distributed by Fruits and Vegetables Development Board, fruit nursery farms, District and year-wise physical progress of soil conservation organization.

The statistics contain yield data on the most important crops in Khyber Pakhtunkhwa. The yield and production of major crops show varied results on district-wise comparison. The yield for major crops in the province is well below the national average.

Out of the cultivable area in the province only 1.65 million hectare is cultivated, whereas 1.08 million hectare is culturable waste, signifying the need to bring more area under cultivation so as to address the issue of food security and rural livelihood in the long-term.

The analysis of ADP's allocation to agriculture sector for the past two years highlights that on average the share of agriculture sector to the total size of the ADP remained 1.6 percent, which is insignificant to confront the issues of low productivity, food security and rural livelihood.

Forests

The section of forestry contains statistics on forest resources. The statistics report that in Khyber Pakhtunkhwa about 23 percent land is under forest cover. The proportion of forest area in Mansehra, Kohistan, Swat, Lower Dir, Upper Dir, Abbottabad and Chitral is relatively high.

Fisheries

The section of fisheries contains the fish production fishing licences and revenue. The reporting data is indicative of the fact that the fish production and revenue have been significantly decreased.

Livestock

Livestock statistics capture important data relating to veterinary hospitals and dispensaries, animals and birds treated; number of slaughter houses, animal slaughtered and artificial insemination.

EXPLANATORY NOTE ON FOOD

Human body like other living organisms needs food to survive. Food is the very basic human need to sustain life. According to the Food and Agriculture Organization (FAO), food security "exists when all people, at all times, have physical and economic access to sufficient, safe and nutritious food to meet their dietary needs and food preferences for an active and healthy life". The basic pillars of food security are availability of food, access to food and food utilization.

This publication contains the data on food situation. The important set of information covered in the document relates to district-wise food storage accommodation in government godowns and district-wise stock position of Wheat and Rice with data on availability and production. It is expected that this data will add value to developing plans and strategies aiming at food security and monitoring the situation of food.

EXPLANATORY NOTE ON EDUCATION SECTOR

Education is not only a key driver of economic growth due to its varied linkages with employability, productivity, environment, health and human resource development but a globally recognized human right. Poverty nowadays is measured more comprehensively using the Multidimensional Poverty Index (MPI), which looks at overlapping deprivations in health, education and standard of living. Hence, equitable and fast development of education has striking impacts on strategies geared at poverty reduction.

Management of Educational System in the Province requires valid and reliable information. The data needed for planning and monitoring the performance of Educational Institutions are much more than the number of schools, colleges, students and teachers. The data highlighted in the publication is extensive and capture performance against variety of indicators such as Literacy Ratio, Student-Teacher ratio, Gender Parity Index and Participation Rate with district-wise breakdown.

A total of 43 tables have been included in this sector. The data regarding literacy ratios in Khyber Pakhtunkhwa with comparison to other Provinces have been included to provide a snapshot of the relative performance of the province. The private school data have also been included based on the available of data. As usual data on three main subjects namely Number of Educational Institutions, enrolled population and their teaching strength have been presented for the last three years.

The analysis of the data reveal that the number of all types of Government Functional Primary Schools has decreased from 22717 in 2014-15 to 22044 in 2015-16, registering a decrease of -2.96%. Boy's schools posted -5.4% decrease in 2015-16 over 2014-15, while girl's schools have been increased by 1.26% during the same period. Beside this, there are total 191 closed/non-functional primary schools, 58 for boys and 133 for girls. Mosque schools offering 1-5 classes have been decreased. Number of Mosque Schools decreased from 1877 in 2014-15 to 1013 in 2015-16, and enrolment in these schools decreased from 84774 in 2014-15 to 53390 in 2015-16, similarly the number of teaching staff has also decreased from 2141 in 2014-15 to 1222 in 2015-16.

During 2015-16, there are 2579 Government Functional Middle Schools in the Province; 1491 for Boys and 1088 for Girls in 2015-16, beside this there are 53 closed/non-functional schools, 15 for boys and 38 for girls. The Enrolled population in Middle Schools have decreased from 787315 in 2014-15 to 772257 in 2015-16, signifying decrease of -1.9%. The Numbers of Teaching Staff in Middle Schools have decreased from 15183 in 2014-15 to 15207 in 2015-16.

As far as High and Higher Secondary Schools are concerned, their Number, Enrolment and Teaching Staff are rising. Number of Functional High Schools increased from 2108 in 2014-15 to 2175 in 2015-16. Boys High Schools, which were 1386 in 2014-15, have been enhanced to 1412, while Girls High Schools increased from 722 in 2014-15 to 763 in 2015-16. Number of Higher Secondary Schools has increased from 406 in 2014-15 to 464 in 2015-16.

There are 192 Degree and 21 Post Graduate Colleges in the Province in 2016-17. The statistics available for the year 2016-17 show that the province has 90 Degree Colleges for girls and 102 for boys.

As far as the Technical Educational is concerned, there are 23 Government College of Technologies and Polytechnic Institutions. The number of Colleges of Management Sciences has been increased from 28 in 2015-16 to 31 in 2016-17, while the number of Technical and Vocational Centres are decreased from 39 to 38 during the same period. The reason is that teacher education has given some centres to PAF.

Gender equality is an essential driver of human development. Primary Enrolment Gender Parity Index (PEGPI) indicates mixed results on cross-district comparison with Abbottabad, Buner, Haripur, Karak, Lower Dir, Malakand, Mansehra, Mardan, Swabi, Swat and Tank are performing well; while in Hangu and Shangla the PEGPI stands low.

The various definitions used in the education sector are as under:

i.	Literate	A Person (10 Years & Above) who can read and write a simple letter.

EXPLANATORY NOTE ON MANUFACTURING INDUSTRIES SECTOR

The manufacturing sector has been a major contributor towards promoting economic growth, employment generation, competitiveness and trade development. It is witnessing gradual buildup in its share in the GDP and its importance has increased tremendously during recent years in the wake of emerging issues of poverty, over-population, unemployment and increase in import bill of manufacturing items. The vision 2030 envisages the share of manufacturing sector to change from the current 18.3 percent of GDP to nearly 30 percent by the end of the vision period.

Industrialization is an important driver for the development of an economy. It commanded a central position in all the Five-Year Plans in the growth of the Pakistan's economy as manufacturing provides job opportunities to the population.

The chapter on Industries contains 23 tables and provides basic data on Number of Registered Industrial Units classified by major groups; sugar production and loans disbursed by IDBP, NIB and SIDB respectively.

Census of Manufacturing Industries (CMI)

Census of Manufacturing Industries (CMI) is conducted by Pakistan Bureau of Statistics after every five years under the Industrial Statistics Act, 1942 in collaboration with the Provincial Directorate of Industries and Provincial Bureaus of Statistics. It provides basic data on Fixed Assets, Inventories, Employment, Employment Cost, Industrial Taxes, Overhead Expenses, and Value of production and Value Added etc.

It covers those establishments, which are engaged in manufacturing activities whether for whole or part of the year with single or joint ownership/ control and are registered under Factories Act, 1934. Some factories liable for registration are also covered. However, defense and government workshops though engaged in manufacturing activities and registered under factories act are excluded from the preview of the census.

Monthly Survey of Industrial Production and Employment

The Monthly Survey of Industrial Production & Employment is a regular monthly publication of the Bureau of Statistics, Khyber Pakhtunkhwa, which is being released since 1976. It provides information on production covering quantity, value and employment with regard to 13 types of large scale manufacturing industries situated in Khyber Pakhtunkhwa.

Statistical tables included in this section contain data on Production and Employment from 2000-01 to 2016-17 and monthly data for 2016-17 in respect of 22 items manufactured by 12 selected large scale industries in Khyber Pakhtunkhwa.

Population has long been recognized as one of the most important factors in economic and social development process. Population growth patterns are linked to nearly every matter confronting humanity including poverty, urban pollution, education, energy production, roads, food, water scarcity and human health.

Population Census

Since independence of this country, Six Population Censuses have been conducted. First decennial Population Census of Pakistan was conducted during the period from 9th to 28th February 1951, the second from 12th to 31st, January 1961, the third from 16th to 30th September 1972, the fourth from 1st March to 15th March 1981, fifth from 2nd March to 18 March 1998 and the sixth from 15th March to 24th May 2017.

The sixth decennial Population Census was preceded by a full-fledged Housing Census. The Census figures covered the Population residing in Pakistan on 15th March to 24th May 2017 including Afghan and other Aliens residing with local population. Population does not include Afghan Refugees living in Refugee Villages/Camps.
